LUNALINE
professional

ABOUT THE COMPANY

LUNALINE PROFESSIONAL MAKING QUALITY ACCESSIBLE

We've been creating professional nail care products since 2017 – for those who value quality and innovations!

We don't just produce – we inspire professionals to be creative and deliver flawless manicures.

Our goal – is to offer innovative, safe and efficient materials that become reliable tools in the hands of professionals.

OUR NUMBERS

8+

years of experience
in the nail industry

500+

items in stock

600+

shades in palette

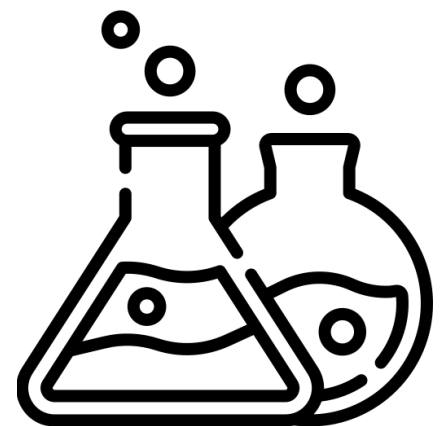

90500+

customers per month

Since 2017, we've been setting nail trends, refining skills and turning ideas into market hits. Our perfectionist chemists meticulously work out every detail. We conduct laboratory and operational tests so that every Lunaline product becomes a new must-have in every master's kit.

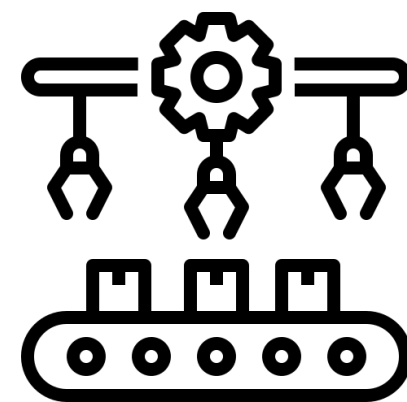

PRODUCTION

We adhere to the principle of maintaining high quality and affordable prices. Thanks to our own laboratory and team of experts, we achieve the necessary coating properties and create unique proprietary color palettes.

Safe components

We use only safe materials for your confidence

Multi-stage control

Each product undergoes strict quality control at every stage of production

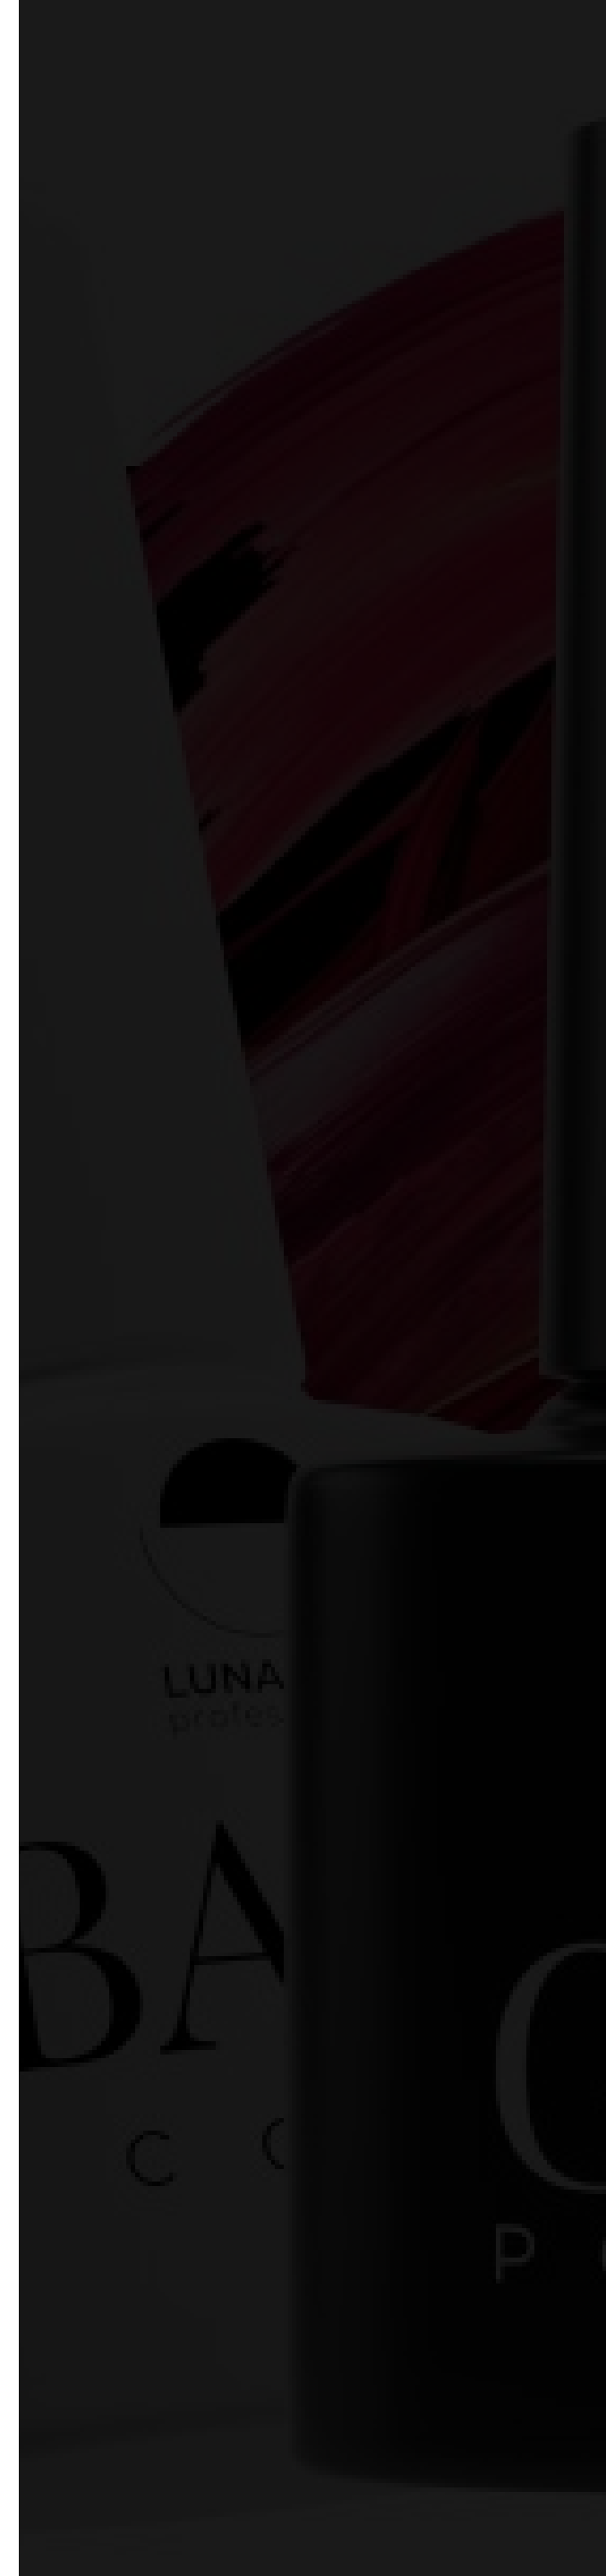

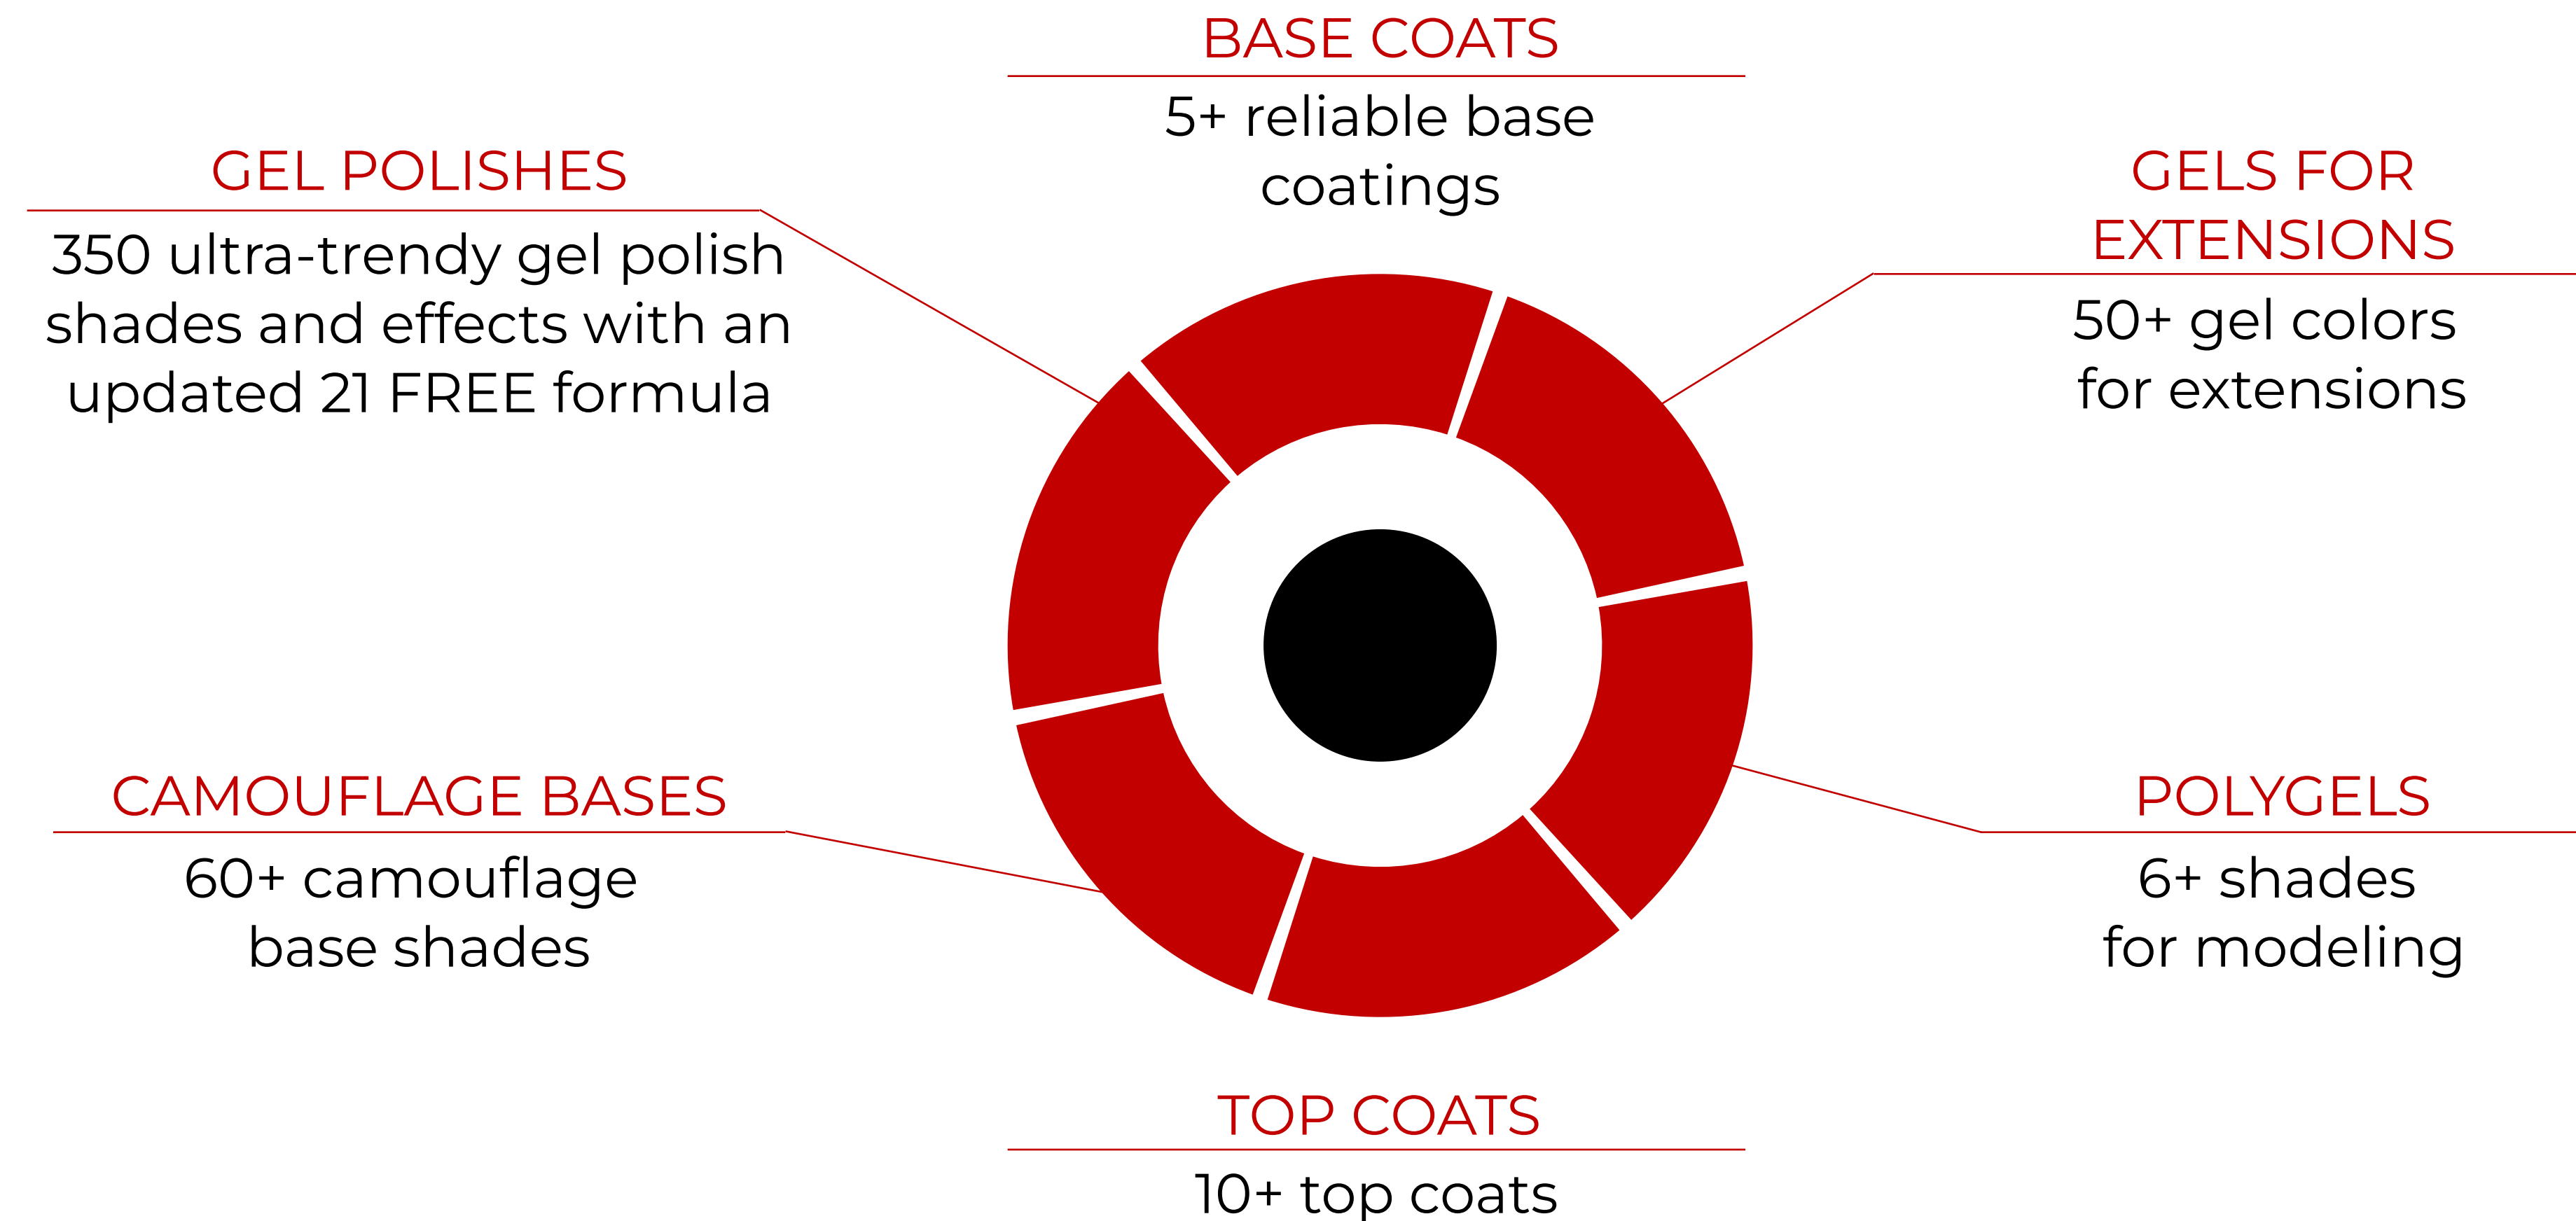

International standards

All Lunaline Professional products are manufactured according to ISO and EAC standards

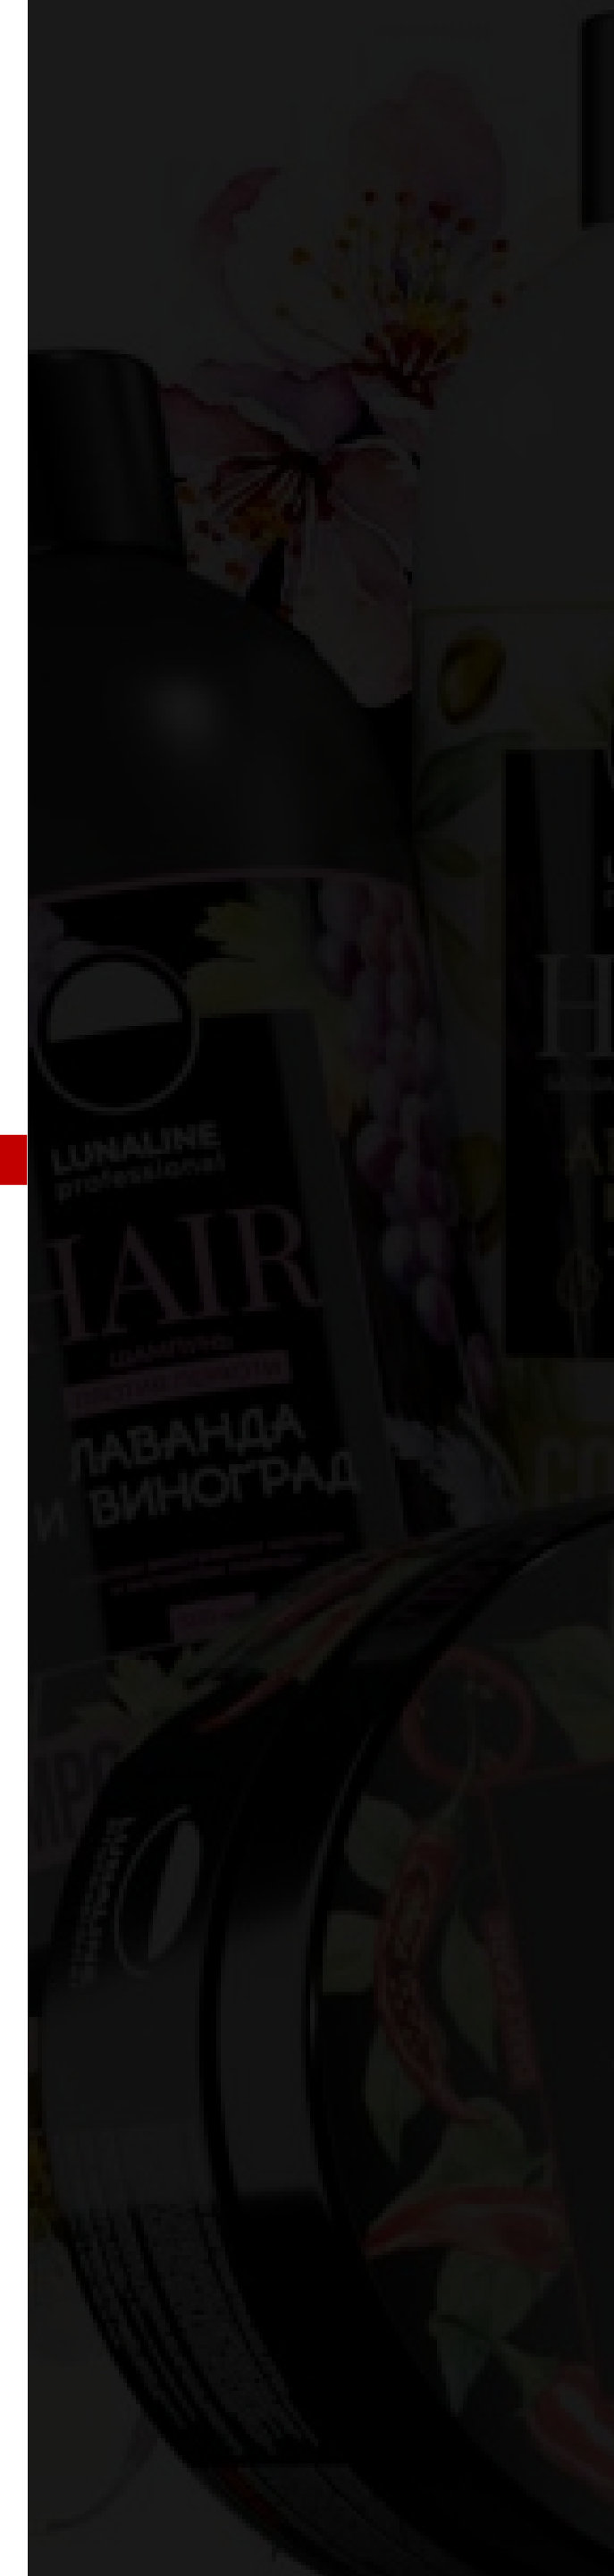

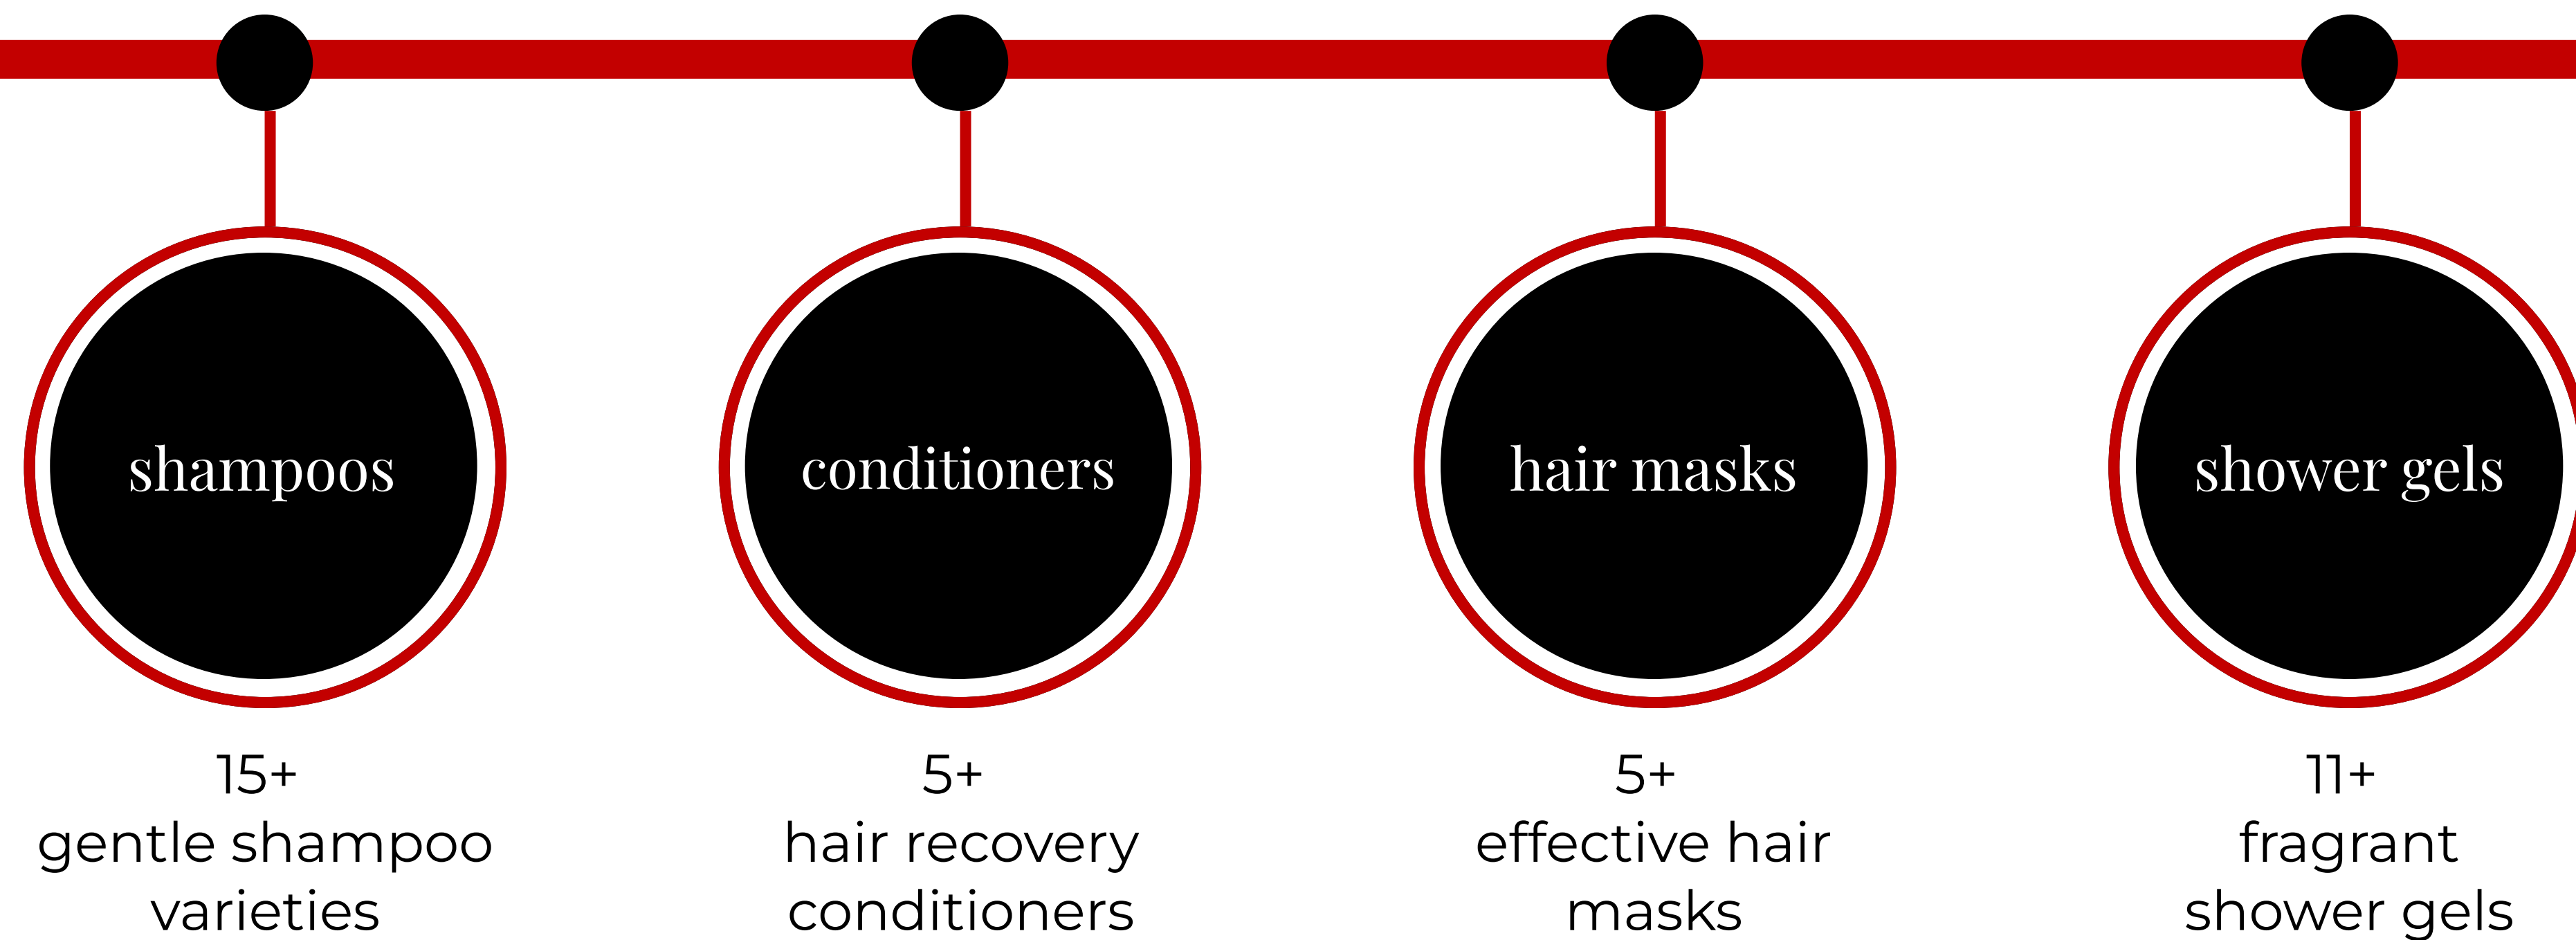

EVERYTHING FOR MANICURE

THE BRILLIANCE OF PROFESSIONALISM IN EVERY DROP!

SKINCARE COSMETICS

In addition to nail products, Lunaline offers a wide range of skincare cosmetics for hair and body.

in 4-8 weeks

COOPERATION

CONTRACT PRODUCTION - FROM IDEA TO FINISHED PRODUCT!

We work exclusively with premium materials and cutting-edge technologies. Every batch – guarantees safety, durability, and perfect results. Our certificates – aren't just pieces of paper; they prove that we prioritize quality over profit. Want a product that customers will love and competitors will appreciate? Let's create it together! Your brand deserves the best – and we know how to achieve it!

1

Task

It all starts with your idea! Share it with us and together we'll develop a technical specification.

2

Development

We create formulations and coordinate samples with you, while you choose packaging and design.

3

Production

We carry out synthesis, tinting, and bottling under close supervision of technologists. Control samples are retained.
