in the city of Naberezhnye Chelny*

Cultural code

Embroidery for a woman – is a ritual. It's a time to spend alone with oneself, to release unnecessary tension and to create something beautiful and pleasing.

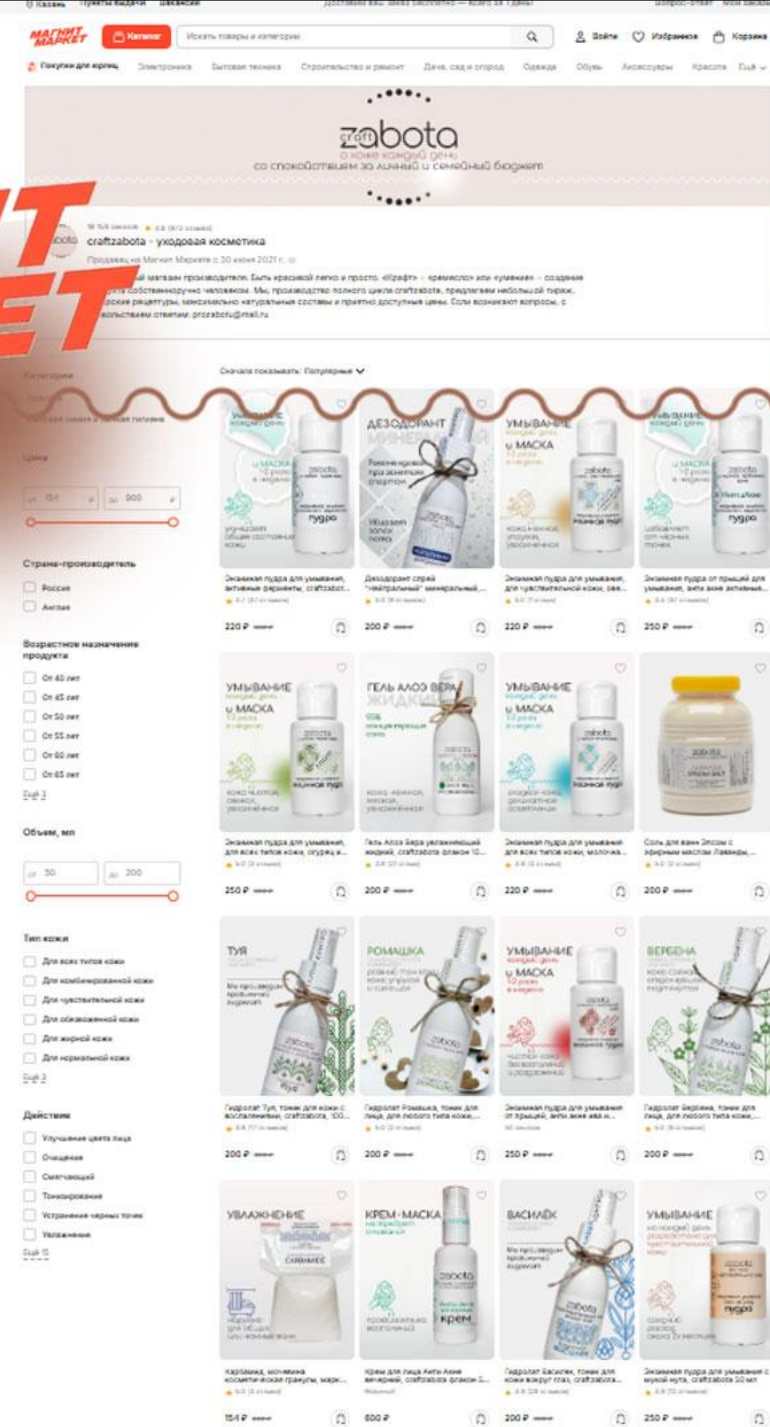

Elements of national motifs in embroidery – tambour stitch and cross stitch – are used in the creation of labels as a reminder to women about returning to themselves, about the pleasant ritual of self-care, the quest for inner harmony

We only sell products on

- We are considering the possibility of entering other marketplaces
- We are preparing for trademark registration
