

TALIR

ABOUT THE COMPANY

We have been producing natural cosmetics since 1993

- «Mustela» LLC has been included in the European Golden Register for manufacturing products that meet the highest European and world quality standards, which confirms the high level of raw materials and finished product (2013)
- Own pharmaceutical production operating continuously over the last 30 years
- Safety and hypoallergenic properties of the products clinically proven by long-term use in therapeutic, surgical, burn, and pediatric departments
- Use of natural plant oils of high pharmaceutical quality combined with highly dispersed mink oil emulsion - a result of many years of scientific research work

ABOUT THE COMPANY

- Low-temperature production process ensures maximum preservation and effectiveness of the cream's natural ingredients, achieved through manual production in small batches
- The brand «Mustela» is the calling card of the Republic of Tatarstan in the field of natural cosmetic production
- Mustela company's products fully satisfy the demand for cosmetic products among all population groups: from newborns to elderly people

OUR MISSION

Our mission is to create high-quality and effective cosmetic products based on mink oil, providing natural care for skin and hair

Provide natural solutions:

Develop cosmetics that use only natural ingredients, focusing on safety and eco-friendliness

Support health and beauty:

Help our customers achieve healthy and beautiful skin and hair by utilizing the unique nourishing and moisturizing qualities of mink oil

Preserve nature:

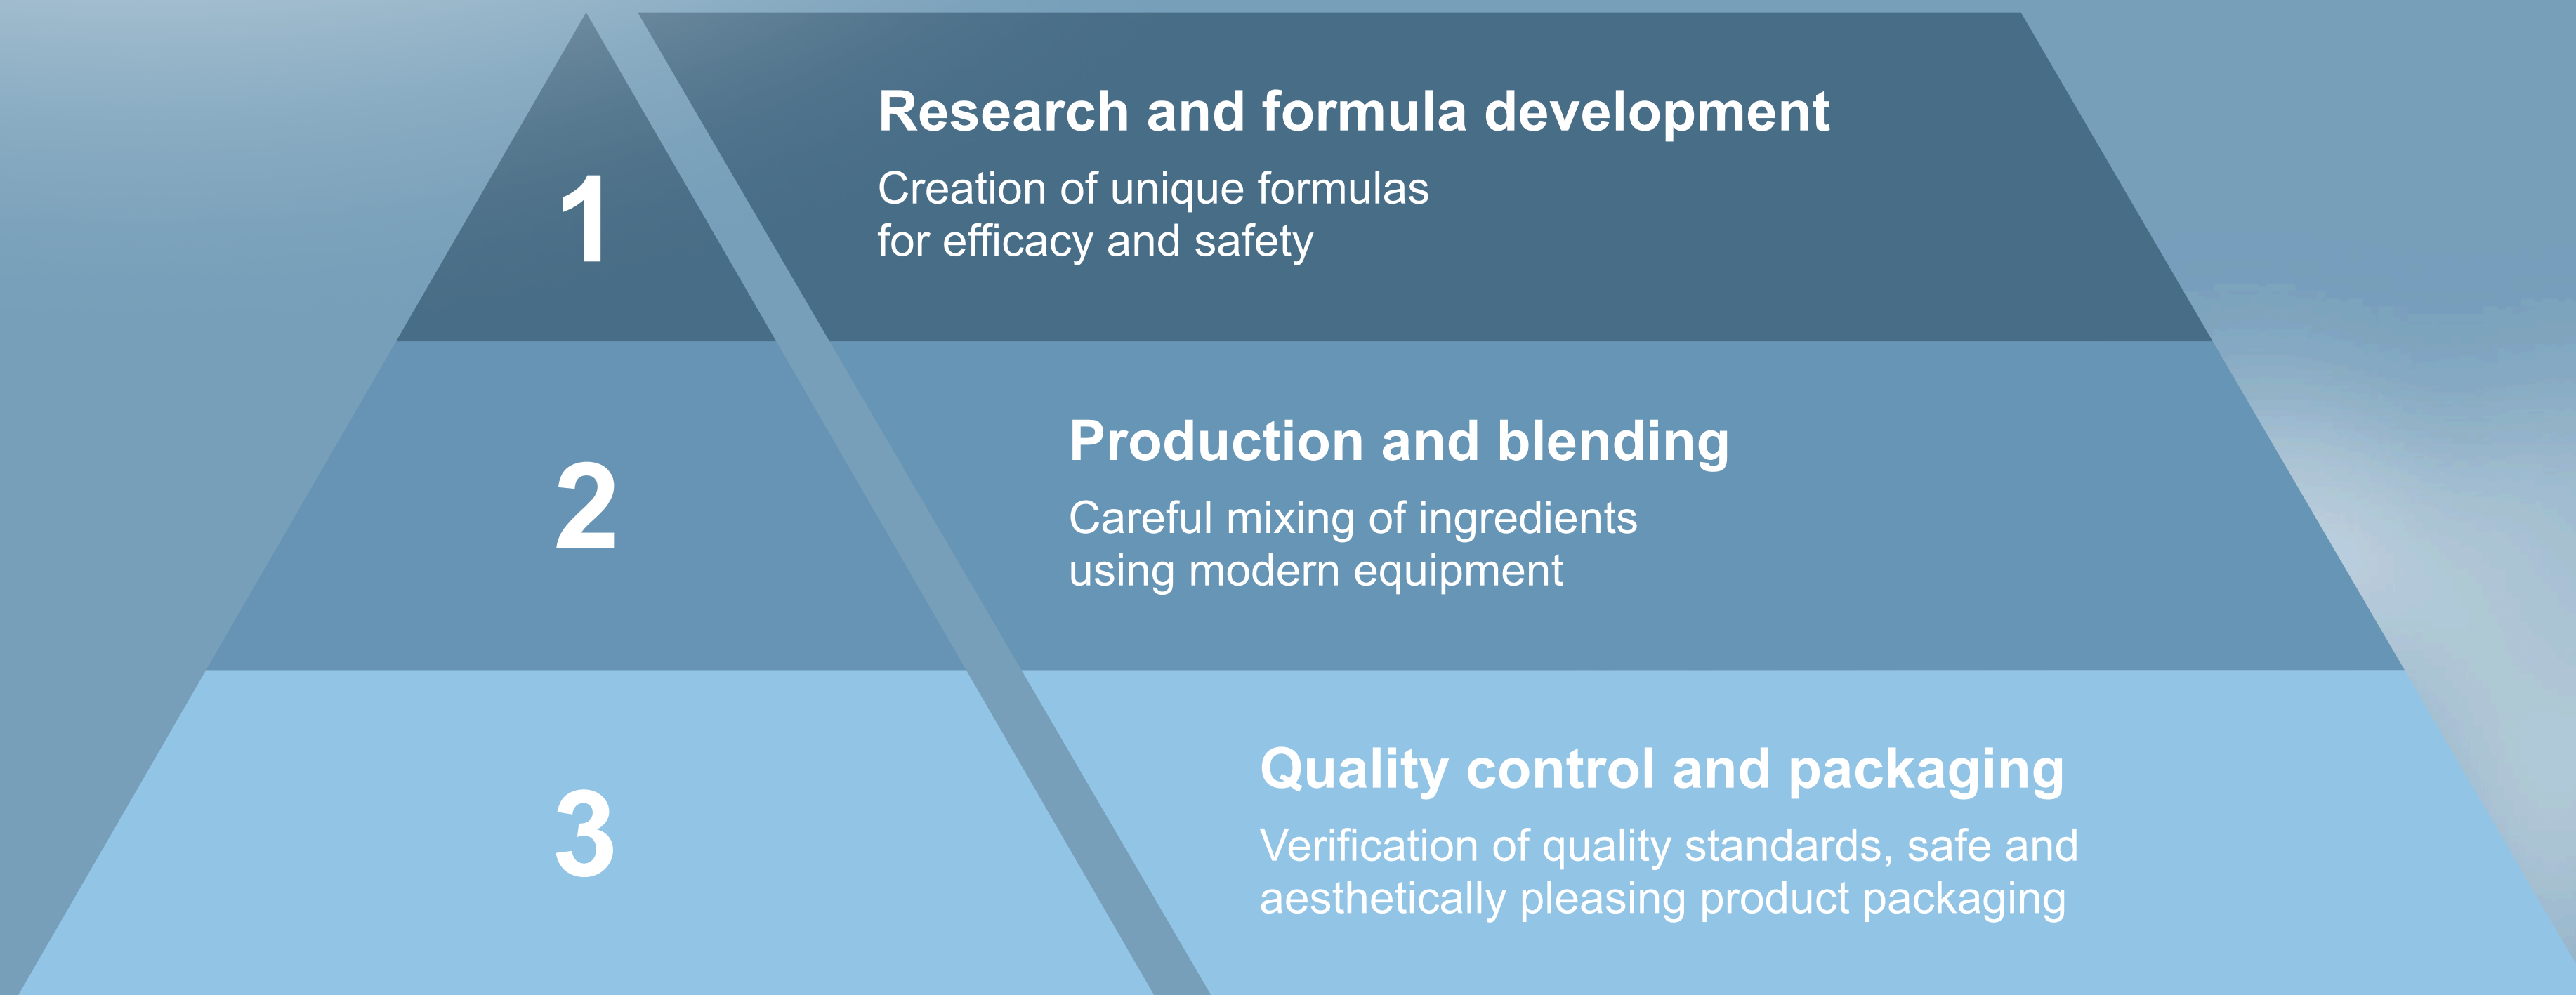

Use sustainable and ethical manufacturing methods, minimizing environmental impact and supporting animal welfare

Build trust:

Establish long-term relationships with customers based on transparency, honesty, and the high quality of our products
